# Citrus Hack

## About Us

Citrus Hack is the Inland Empire's Premier Hackathon - a **36** hour event for innovators, organized by students at the University of California, Riverside. Established in 2015, Citrus Hack invites students across California and throughout the world to cultivate new and exciting technologies. As our second annual hackathon, we aim to bring value to the technology sector through innovation from the next generation of developers. This event is focused on creating new relationships between students and sponsors to incubate innovative projects that will benefit the technology industry.

## Where

Winston Chung Hall of UCR,  
Riverside's largest solar  
energy provider.

## When

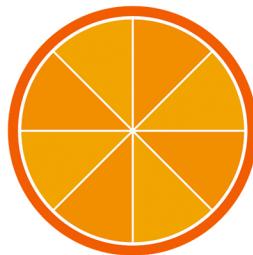

October 21-23, 2016

## Who

We are expecting over **400** hackers from all over the world.

## Why

As a Citrus Hack sponsor, you will add considerable value to the event. With your support, Citrus Hack will be able to provide refreshments and meals, travel reimbursements for traveling hackers, prizes, hardware, and much more. In addition to helping us, you'll also be in direct contact with top talent around the world.

## BRANDING

Website	Standard	Medium	Medium	Large	Co-Hosted
T-Shirt	Standard	Medium	Medium	Large	Co-Hosted
Swag					
Company Banners					

In addition to monetary support, we appreciate other means of support:

### FOOD & DRINKS

Help us feed the hackers. We hope to provide 5-6 meals for every hacker through the entirety of the event along with snacks and refreshments being readily available.

### SWAG

Everyone loves swag. Innovators love repping the companies they find inspiration from.

### TECH. SUPPORT

Send mentors! Learning opportunities from industry leaders is something a hacker could never turn down.

### TRANSPORTATION

We want the world's best at our hackathon and transporting them here is our priority. If you are able to fund transportation, such as a bus or flight, it would not only give us the opportunity to work hackers with diverse backgrounds but also give you as a sponsor the opportunity to see what they do best.
